

Fracture treatment in Cats and Dogs with 2.0-3.5 mm LeiLox System and LeiLox 1.5/2.0 mm (titanium) Micro Locking System

The new **LeiLOX** Locking Systems are 100% made in Germany and specially developed for small animals. They are suitable for a wide range of applications like Fractures of all kinds of long bones, pelvic fractures, fractures close to joints, rod-plate constructs, oral maxillofacial, corrective Osteotomies and others. Within these systems a big variety of locking plates and screws which allow secure fixation are available.

The **LeiLOX 1.5/2.0** Micro Locking system was specially developed for small dogs and cats. All implants are made of titanium with the advantages of highest biocompatibility, low temperature sensitiveness, low weight in combination with high strength and stiffness suitable for small patients.

The **LeiLOX 2.0-3.5** Stainless Steel systems are made of highest quality surgical implant steel. Stainless Steel implants can take high loads and forces as they can appear especially in large and giant breed dogs. In addition the multi-axial locking system allows high flexibility in fixation.

1st day

- Basics of Osteosynthesis, type of fractures, healing of fractures
- Development of plate systems Locking systems
- two concepts: „stable“ and „biologic“
- 2.0-3.5 LeiLOX (stainless steel) Locking Systems and LeiLox 1.5/2.0 mm (titanium) Micro Locking System by Rita Leibinger

2nd day

- Salter-Harris fractures
- Minimal invasive plate osteosynthesis (MIPO)
- Open fractures
- Fractures at different bones (Humerus, Radius/Ulna, Femur, Tibia, Pelvis, Tarsus, ...)

There is an extensive practical part on both days.

This course is supported by RITA LEIBINGER GmbH & Co. KG and Dr. Hugo Schmökel (DVM, PhD, ECVS).

Location: Tierklinik Stuttgart-Plieningen GbR
Hermann-Fein-Strasse 15 (close to the airport)
D-70599 Stuttgart / Germany

Fracture treatment in Cats and Dogs with 2.0-3.5 mm LeiLox System and LeiLox 1.5/2.0 mm (titanium) Micro Locking System

Speaker:

Dr. med.vet. Hugo Schmökel, PhD, Dipl ECVS
European Specialist in Small Animal Surgery – examined in 1995.
Dr. Schmökel is an experienced and worldwide recognized expert in small animal orthopaedics. Before his current position as Chief Veterinary Officer at Evidensia Strömsholm, which is the largest veterinary hospital in Sweden Dr Schmökel worked already at various large vet hospitals and universities. Dr. Schmökel wrote numerous peer reviewed scientific publications and book chapters. Moreover he is holding worldwide lectures and seminars.

1st day: 18th February 2022
08:00 – 17:00 h

2nd day: 19th February 2022
08:00 – 17:00 h

ATF: will be announced later
Dry/Wet: Wet-Lab
Language: English
Fee: 990,00 € (excl. VAT)

We would be happy to have you with us.
